

## **Mr. Tan Boon Chong**

Council Member, Singapore Manufacturing Federation

Director, GP Batteries International Ltd

Mr Tan Boon Chong is currently the Director of Compliance & Standards at GP Batteries International Ltd, with extensive expertise in national and international standards development, product compliance, and industry advancement.

Mr Tan plays an instrumental role in shaping Singapore's national standards landscape through Enterprise Singapore, where he holds key appointments across multiple Technical Committees and Working Groups. His leadership includes serving as Convener for working groups on Plugs, Socket-Outlets & Switches, Ceiling Fans, and Primary Batteries, as well as representing Singapore as Head Delegate for IEC TC SC23B (Electrical Accessories) and IEC TC 35 (Primary Batteries). His contributions also extend to Smart Home Technologies and GHG/Product Life Cycle standards, showcasing his broad technical expertise and future-oriented mindset.

At the Singapore Manufacturing Federation (SMF), Mr Tan actively contributes to industry development as Chairman of the SMF/SDO Steering Committee, Board Member of GS1 Singapore, and Advisor to the Electrical & Electronics & Allied Industries Group. He also lends his expertise to committees focused on Testing, Inspection & Certification (TIC), Digital Commerce, and Technology Advancement.

Beyond Singapore, Mr Tan supports Malaysia's National Standardization Working Groups, providing advisory input on Circuit Breakers, Low Voltage Switchgear, and Plugs & Sockets.

Mr Tan further serves as a Technical Assessor for the Singapore Accreditation Council and holds advisory roles with leading certification bodies including TÜV SÜD, CTi, and Intertek.

With his vast technical knowledge, regulatory foresight, and unwavering commitment to product safety, compliance, and innovation, Mr Tan Boon Chong stands as a leading authority in Singapore's compliance and standards ecosystem.
