

Mr. Vincent Wong

Chairman, Technology & Transformation Function Committee

Director, Research & Advanced Engineering

Singapore Continental Automotive Singapore Pte Ltd

Vincent serves as the Director of Research & Development at Continental Automotive Singapore, where he leads the Research & Advanced Engineering group.

Under his leadership, the team drives cutting-edge research and innovation across key areas including Autonomous Driving, Artificial Intelligence, Robotics, and Cybersecurity. Vincent spearheads the strategic planning, development, and execution of technological projects aligned with Singapore's innovation ecosystem and the broader regional landscape.

Prior to his current role, Vincent led the Application and Platform Development group for the Business Unit Instrumentation & Driver HMI at Continental Singapore. In this capacity, he oversaw R&D activities across Singapore and Malaysia, supporting global automotive customers with advanced technology solutions.

In addition to his corporate responsibilities, Vincent actively contributes to the industry's transformation agenda. He currently serves as the Chairman of the Technology and Transformation Function Committee and is a Council Member of the Singapore Manufacturing Federation. He also lends his expertise as a member of the ITE Electronics & Info-Comm Technology Academic Advisory Committee, helping to shape the future talent pipeline for Singapore's technology sector.

With over two decades of experience in the automotive industry, Vincent is a strong advocate for collaborative innovation, working closely with public agencies, academia, multinational corporations, SMEs, and startups to foster impactful partnerships and drive technological advancements for the industry.
